Junior took one of the boxed guns, a 9-mm semiautomatic. Months would probably pass before she noticed the pistol missing from the back of her closet, and by then she wouldn't know who had taken it. "I want you to adopt the baby." Before they could react, she hurried on: "I won't be twenty-one for four months yet, and even then they might give me trouble about adopting, even though I'm her aunt, because I'm single. But if you adopt her, I'll raise her. I promise I will. I'll take full responsibility. You don't have to worry that I'll regret it or that I'll ever want to drop her in your laps and escape the responsibility. She'll have to be the center of my life from here on. I understand that. I accept it. I embrace it." "Of all the things I might be meant to do with my life," he told Agnes, "I believe nothing will matter more than the small part I've had in bringing together these two children." "I have trusted in thy mercy, she thought desperately, reaching for comfort to Psalms 13:5. On the back of the watch case, however, were the incriminating words of a commemorative engraving: To Eenie/Love/Tammy Bean. The tone sounded, as promised, and a man's voice spoke from the box: "It's Max. You're psychic. I found the hospital here. Poor kid had a cerebral hemorrhage, arising from a hyperensive crisis caused by ... eclampsia, I think it is. Baby survived. Call me, huh?" He slipped the card out from under the change, turned it over. A joker. Printed in red block letters across the card was a name, BARTHOLOMEW. Junior intended to add one stocky ghost to the party. Perhaps on a summer night in years to come, at the edge of the light fall from his Coleman lantern, a fisherman would see a semitransparent Vanadium providing entertainment with an ethereal quarter. Perhaps a lot of suspects were rattled and ultimately unnerved by this behavior. Junior wouldn't be easily trapped. He was smart. For the first time in many months, Barty didn't want to sleep in the dark. They left the door of the room open, admitting some of the fluorescent glow from the hallway. SERAPHIM AETHIONEMA WHITE was nothing whatsoever like her name, except that she had as kind a heart and as good a soul as any among the hosts in Heaven. She did not have wings, as did the angels after which she had been named, and she couldn't sing as sweetly as the seraphim, either, for she had been blessed with a throaty voice and far too much humility to be a performer. Aethionema were delicate flowers, either pale-or rose-pink, and while this girl, just sixteen, was beautiful by any standard, she was not a delicate soul but a strong one, not likely to be shaken apart in even the highest wind. Startled, the pianist turned to face him-and backed off a step, as though his personal space had been too deeply invaded. "Oh, well, thank you, that's kind. I love my work, you know, it's so much fun it hardly qualifies as work at all. I've been playing the piano since I was six, and I was never one of those children who whined about having to take lessons. I simply couldn't get enough." She tried to raise her right hand, but it flopped uselessly and would not respond. "Getting her into her shoes and coat sooner than Monday required a bribe," Wally said. Even as this news pleased Junior, it also saddened him. He was not merely interring a lovely wife, but also his first child. He was burying his family. Sometimes, just the thought of getting in the car and venturing into the dangerous world was intolerable. Then he settled into his La-ZBoy and waited for the natural disaster that would soon scrub him off the earth as though he had never existed. Obadiah tossed the pack of cards to Edom, startling him. "Son, you'll have to help me. My fingers have no finesse anymore." While always Agnes held fast to hope, she knew that easy hope was usually false hope, and she didn't allow herself to speculate, even briefly, that his problem had resolved itself. Other symptoms-halos and rainbows-had disappeared for a time, only to return. Barty's release from Hoag Presbyterian had been delayed by an infection, and thereafter he had spent three days in a Newport-area rehabilitation hospital. Rehab consisted largely of orientation to his new dark world, since his lost function could not be recovered by either diligent exercise or therapy. Jacob was hiding something. Until he had spoken of Josef Krepp, his every response had been formed as a question, which had always been his preferred method of avoidance when conversation involved a subject that made him uncomfortable. He doubted the Studebaker would ever be found, but successful men were, without exception, those who paid attention to detail. Lined up on the kitchen table were green-grape-and-apple pies. The thick domed crusts, with their deeply fluted edges, were the coppery gold of precious coins. "I doubted myself more than God, though Him, too. I had those boys' blood on my hands. They were mine to protect, and I failed." "But you don't understand." She recounted the extraordinary draw of aces during the fortune-telling session Friday evening. spades. Friday night, she had ripped the cards in thirds and had been carrying the twelve pieces with her since then, waiting for this quiet Sunday evening. Earlier, the dirty-sheet clouds had been wrung dry. Now, the trees that overhung the house had finally stopped dripping on the cedar shingled roof. The night was so still that Agnes could hear the sea softly breaking upon the shore more than half a mile away. Nothing in life was risk free, so he hesitated only a moment: at the foot of the porch steps before climbing them and knocking on the door. "That's the Oreo. After I ate it up, the cookie went smooosh--smooosh into my finger." "Thank you, Dr. Lipscomb. I'll keep track of what you're losing every month, and someday I'll pay it back to you." Only now, as the tide of adrenaline began to ebb, Paul wondered who could possibly have wanted to kill a man of peace and God, a man as good as Harrison White. Soon paramedics followed the police, who spread out through the apartment, and Junior relinquished his grip on the dishtowel. Vanadium, lending an aura of normalcy to the house. Now he wanted silence, so he would immediately hear another car in the driveway if one arrived. The nurse led the way, while the orderly pushed the gurney from behind Barty's head. Therefore, after the nasty shooting, as the Bartholomew hunt continued, so did the good life. Perri had been crippled seventeen years before Jonas Salk's vaccine had spared future generations from the curse of polio. Kathleen savored her martini. "Mmmm ... as cold as a hit man's heart and as crisp as a hundred-dollar bill from the devil's wallet." She searched the child's unfocused eyes for some sign of the hateful father's wickedness. Nevertheless, Junior was thrilled to hear the name Bartholomew, and to know that the boy of whom Celestina spoke was the Bartholomew of Bartholomews, the menacing presence in his unremembered dream, the threat to his fortune and future that must be eliminated. "Because He didn't want

you to be a dog." She finished tying a bow in the drawstrings. "There. You look just like an M&M." The ninth card was a jack of spades. Maria called it a knave of and at the sight of it, her bright smile dimmed..She herself had been too nervous to eat anything. She'd held the same glass of untasted champagne throughout the evening, clutching it as though it were a mooring buoy that would prevent her from being swept away in a storm..Nearly two weeks ago, in the Spruce Hills hospital, Junior had been drawn by some strange magnetism to the viewing window at the neonatal-care unit. There, transfixed by the newborns, he sank into a slough of fear that threatened to undo him completely. By some sixth sense, he had realized that the mysterious Bartholomew had something to do with babies..THE RAIN THAT HAD threatened to wash out the morning funeral finally rinsed the afternoon, but by nightfall the Oregon sky was clean and dry. From horizon to horizon spread an infinity of icy stars, and at the center of them hung a bright sickle moon as silver as steel..So much argued against the idea that they could succeed as a couple. In this age when race supposedly didn't matter anymore, it sometimes seemed to matter more year by year. Age mattered, too, and at fifty, he was twenty-six years older than she was, old enough to be her father, as surely her father would quietly but pointedly--and repeatedly!--observe. He was highly educated, with multiple medical degrees, and she had gone to art school..Without sigh or complaint, he would walk back to her with the purse. The errand was no trouble. In fact, returning the purse would give him a chance to get another good-night kiss..Celestina circled him, half carrying but also half dragging the chair, either because her nerves were still ringing and her arms were weak--or because she was faking weakness in the hope of luring him to a reckless response. Junior circled her while she rounded oil him frantically trying to deal with the pistol without taking his eyes off his adversary..It's been a joy to me to go back to Earthsea and find it still there, entirely familiar, and yet changed and still changing. What I thought was going to happen isn't what's happening, people aren't who-or what-I thought they were, and I lose my way on islands I thought I knew by heart..Dear Lord, how she loved her sugarpie, her little M&M. Three years had passed in what seemed like a month, and although there had been stress and struggle, too few hours in every day, less time for her art than she would have liked, and little or no time for herself, she wouldn't have traded being blindsided by motherhood for any amount of wealth, not for anything in the world ... except to have Phimie back. Angel was the moon, the sun, the stars, and all the comets streaking through infinite galaxies: an ever-shining light..Urgency gripped the paramedics. The rescuers' equipment and the pieces of the car door were dragged out of the way to make a path for a gurney, its wheels clattering across pavement littered with debris..After a surgeon had lanced fifty-four boils and cut the cores from the thirty-one most intractable (shaving the patient's head to get at the twelve that were festering on his scalp), and after three days of hospitalization to guard against staphylococcus infection, and after he had been turned back into the world as bald as Daddy Warbucks and with the promise of permanent scarring, Junior visited the Reno library to catch up with current events..Rising slowly like the blade in the hands of an ax murderer as deliberate as an accountant, Thomas Vanadium's gaze arced from Junior's clenched fist to his face.. "I hope it will," the physician said, but his emphasis was too solidly on the word hope..Even when he saw no cop cadaver, no ghoulish grin, no two-bit eyes, Junior was not immediately relieved. Warily, he circled the car, expecting to find the detective crouching and poised to spring.. "New York City, March 25, 1911, the Triangle Shirtwaist factory fire-one hundred forty-six dead." In his car, currently a Mercedes, he made three trips between his apartment and the garage in which he'd stored the Ford van under the Pinchbeck name. He took precautions against being followed..a time, from the carafe on the nightstand. She spooned the ice into Junior's mouth not with the businesslike. These statements sounded so convoluted and so bizarre to Agnes that they nourished her growing fear for Barty's mental stability..She might have attributed his problem to eyestrain from all the reading he'd done during the past few days. She might have put drops in his eyes, told him to leave the books alone for a while, and sent him into the backyard to play. She might have counseled herself not to be one of those alarmist mothers who detected pneumonia in every snuffle, a brain tumor behind every headache..Somehow, Agnes knew that in his younger days, Obadiah had been a stage magician. Artlessly, she drew him out on the subject.. "They're all the family I have," Junior said with what he hoped sounded like sorrow and long-suffering love..If such a small quantity of crushed ice, taken in a single swallow, might cause.. "Not really. I love you, Mommy." He yawned and dropped into sleep with a quickness that always amazed her. And then everything changed in one stunning moment. Changed profoundly and forever..This morning, as Barty stood to one side listening, his mother asked Maria for poems by Emily Dickinson..On Tuesday, less than twenty-four hours after Naomi's funeral, Knacker, Hisscus, and Nork--representing the state and the county held preliminary meetings with Junior's lawyer and with the attorney for the grieving Hackachak clan. As before, the well-tailored trio was conciliatory, sensitive, and willing to reach an accommodation to prevent the filing of a wrongful-death suit..Although a believer, Agnes was not at the moment able to spread the flowers and ferns of faith over the hard, ugly reality of death. Cowled and skeletal, Death was here, all right, scattering his seeds among all her gathered friends, one day to reap them..The doors were unlocked on a pickup parked next to the Pontiac. Junior lifted the granny onto the front seat of the truck. She was so light, so unpleasantly angular, and she rustled so much that she might have been a new species of giant mutant insect that mimicked human appearance. He was glad, after all, that he hadn't killed her: Granny's prickly--bur spirit might have proved to be as difficult to eradicate as a cockroach infestation. With a shudder, he tossed her purse on top of her, and slammed the truck door..The hospital room was softly lighted, and shadows roosted on all sides like a flock of slumbering birds..For a moment, Junior drew a blank on Renee. Reluctantly, he trolled the past and fished up the painful memory: the gorgeous transvestite in the Chanel suit, heir or heiress to an industrial-valve fortune..Indeed, Junior suspected that they might be here at Vanadium's urging. The cop would be interested in determining how avaricious the mourning husband would prove to be when presented with the opportunity to turn his wife's cold flesh into cash.. "The piece that's intrigued me," Junior revealed, "is the one that's rather like a c-c-candlestick. It's quite different from the others." "Can't change your own form, even seemingly?" Although Neddy had flushed to a rich primrose-pink, Junior still held his hand, crowding him, lowering his face even closer to the musician's. "If you vouched for a teacher, I'd feel confident that I was in good hands, but I'd still much rather learn from you, Neddy. I really wish you would reconsider-". Think, think. A three-minute drive to the Lampion place. Maybe two minutes, running stop signs, cutting corners..Chicane packed the ice against Junior's thighs. "Severe spasm causes inflammation. Twenty minutes of ice alternating with twenty minutes of massage, until the worst passes." Their apartment was in a four-story Victorian house that dripped gingerbread, in the exclusive Pacific Heights district. It had been converted to apartments with deep respect for the architecture, years before Wally bought it..Because his pinching fingers deformed the shape of her mouth, her voice was compressed: "I see all the ways you are." Agnes knew now why this prognostication had dismayed rather charmed her: If you dared to believe in the good fortune predicted he cards, then you

were obliged to believe in the bad, as well..She was forty-three, so young to have left such a mark upon the world. Yet more than two thousand people attended her funeral service-which was conducted by clergymen of seven denominations-and the subsequent procession to the cemetery was so lengthy that some people had to park a mile away and walk. The mourners streamed across the grassy hills and among the headstones for the longest time, but the presiding minister did not begin the graveside service until all had assembled. None here showed impatience at the delay. Indeed, when the final prayer was said and the casket lowered, the crowd hesitated to depart, lingering in the most unusual way, until Barty realized that like he himself, they half expected a miraculous resurrection and ascension, for among them had so recently walked this one who was without stain.
