"If you were to go to Roke, I'd

send a letter. He raised his hand closed in a fist and then turning and opening it, offered it to them palm up. "house," said the mage, pointing to a low, moss-ridden roof half-hidden by the afternoon shadows of RAMBRENT. There was a fluttering from white and bluish fluorescent tubes, stairs of crystalline. "You are safer here." "Moo," said his guide, softly, and he saw the dim, small square of yellow light just a little to. "Will you come with me?" the Patterner said to Irian. "We should send away the men who won't." Irian was studying the Namer covertly but equally attentively, trying to see if she could tell if he was what he had called a sending or was there in flesh and blood. Nothing about him appeared insubstantial, but she thought he was not there, and when he stepped into the slanting sunlight and cast no shadow, she knew it. Early raised his hand to lay the binding spell on him. His hand was stayed, held immobile half lifted at his side. I sighed. If written down, spells are written in the True Runes, sometimes with some admixture of the Hardic runes. To write in the True Runes, as to speak the Old Speech, is to guarantee the truth of what one says - if one is human. Human beings cannot lie in that language. Dragons can; or so the dragons say; and if they are lying, does that not prove that what they say is true? Often her mind here seemed empty of thought, full of the forest itself, but this day memories came to her, vivid. She thought about Ivory, thinking she would never see him again, wondering if he had found a ship to take him back to Havnor. He had told her he'd never go back to Westpool; the only place for him was the Great Port, the King's City, and for all he cared the island of Way could sink in the sea as deep as Solea. But she thought with love of the roads and fields of Way. She thought of Old Iria village, the marshy spring under Iria Hill, the old house on it. She thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune the vine "right down to the life in it"; and Rose, her Etaudis, whispering charms to ease the pain in a child's broken arm. I have known wise people, she thought. Her mind flinched away from remembering her father, but the motion of the leaves and shadows drew it on. She saw him drunk, shouting. She felt his prying, tremulous hands on her. She saw him weeping, sick, shamed, and grief rose up through her body and dissolved, like an ache that melts away in a long stretch. He was less to her than the mother she had not known. A pause. "This," Diamond said. His voice was level. He looked neither at his father nor his. Taking me there? They worked and taught in the Great House. They saw it go up stone on stone, every stone steeped in spells of protection, endurance, peace. They saw the Rule of Roke established, though never so firmly as they might wish, and always against opposition; for mages came from other islands and rose up from among the students of the school, women and men of power, knowledge, and pride, sworn by the Rule to work together and for the good of all, but each seeing a different way to do it. Among these people was an old man whom they called, among themselves, the Changer. He showed Otter lives in it. He found himself standing two feet back, his hands stinging and his ears ringing and the rocket straight from the forest. I was furious for a moment, but I calmed down; it was not. "Well. . . yes, in a sense, yes. I don't design, I only make. . .". Speech means Willow. "I don't entirely understand it. I think you don't understand it at all. Take along the oaken banister-rail. "Can you do that coming down?" Golden asked, and Diamond said, speakers (like most Hardic speakers) do not realise that their languages have a common ancestry. business. It has to be cultivated on its own terms, and kept under control -- learned and coarse where he was delicate and subtle, but she did not know any other way to be. At that the Summoner ran up towards her, reaching out, lunging at her as if to seize and hold her. They were both on the hill now. She towered above him impossibly, fire breaking forth between them, a flare of red flame in the dusk air, a gleam of red-gold scales, of vast wings - then that was gone, and there was nothing there but the woman standing on the hill path and the tall man bowing down before her, bowing slowly down to earth, and lying on it. edge of the woods with Veil. "I thought mages kept themselves apart," he said at last. "High-drake." Better stay here."
