Probably because she wants to. Anyway, I hid two snapshots of Luki, but they found them.. "You know what I think?" Micky asked.. "condemned men or something?" Colman was becoming irritated again. No one on the ship had met a Chironian yet, but everyone was already an expert. All anybody had seen were edited transmissions from the planet, accompanied by the commentators' canned interpretations. Why couldn't people realize when they were being told what to think? He remembered the stories he'd heard in Cape Town about how the blacks in the Bush raped white women and then hacked them to pieces with axes. The black guy that their patrol had interrogated in the village near Zeerust hadn't seemed the kind of person to do things like that. He was just a guy who wanted to be left alone to run his farm, except by that time there hadn't been much left of it. He'd begged the Americans not to nail his kids to the wall--because that was what his own people had told him Americans did. He said that was why he had fired at the patrol and wounded that skinny Texan five paces ahead of Hanlon. That was why the white South African lieutenant had blown his brains out. But the civilians in Cape Town knew it all because their TV's had told them what to think.. The Chironians would watch and wait until Only the lunatic core was left, stripped bare of its innocent protectors. Eventually only two kinds would be left: There would be Chironians, and there would be Kalenses And Colman no longer had any doubts as to which he would be.. "That's a severe angle," Mrs. Sharrow said. "Where were you?" A lopsided smile tugged at the right corner of the girl's mouth, and unmistakable merriment enlivened her. Leilani shrugged. "It's the truth. I couldn't make up anything as weird as what is. In fact, they blasted her. but she willed steel into her good knee and kept moving.. Returning the untouched forkful of pasta salad to her plate, Leilani looked to Micky for an explanation.. "When we return, it will be a different story," Stern told his entourage on the Bridge as the module's main drives fired and they felt it surge forward and away from the Mayflower II's nose. "But first, we have, to deal with our Chironian - . . friends. What is the report on the Kuan-yin?" Driscoll had to think about the response, and a couple of seconds of silence went by. "It's not the same," he said.. "Oh, for goodness' sake, stop teasing the child," Geneva said. "You'll have to forgive me, Leilani. I've.. "Ye-es," Bernard said slowly, nodding to himself. "He'd know the situation, and he'd probably know a safe way through the border even if some trouble breaks out." He began nodding more strongly. "And we certainly know we can trust him.. From where he was sitting with Bernard, Colman looked over at Kath, who was standing near the center of the room. "You have to be involved with them somehow, even if it's only indirectly," he said. "You must know these people, even if you're not one of them yourself.. "Just indigestion," she murmured with self-derision, because she knew that she was the same shiftless.. The dog sits up straighter and pricks her ears, as if to say that she, too, is well informed about such.. myself?". Another week of unrewarded job-hunting, however, might bring back depression. Also, more than once.. "I never said anything of the kind. The whole point is that they are no~ indiscriminate. That's precisely what a lot of people around here won't get into their heads, and why they have nothing to be afraid of. The Chironians don't draw a line around a whole group of people and think everyone inside it is the same. They haven't started hating every soldier because he happens to wear the same color coat as the bunch that's running wild down there, and they won't start hating every Terran either. They don't think that way.. Paul Lechat paced back and forth in agitation across the lounge of the Fallowses' apartment in Cordova Village. "I didn't think the Chironians would go that far." he said. "I thought they would react only against direct violence. Why couldn't they have just let everything die a natural death?". The discussion continued for a while longer without making any further headway, but Kalens seemed more thoughtful and less insistent. Eventually the others left, and Fulmire sat for a long time staring with a troubled expression at his desk. Curtis Hammond is a source of bitter envy, not because he has found peace in sleep, but because he is.. He took a side door out of the corridor that nobody ever came along and began following a gallery between the outer wall of the Factory and a bank of cable-runs, ducts, and conduits, moving through the 15 percent of normal gravity with a slow, easy-going lope that had long ago become second nature. Although a transfer to D Company was supposed to be tantamount to being demoted, Colman had found it a relief to end up working with somebody like Sirocco. Sirocco was the first commanding officer he had known who was happy to accept people as they were, without feeling some obligation to mold them into something else. He wasn't meddling and interfering all the time. As long as the things he wanted done got done, he wasn't especially bothered how, and left people alone to work them out in their own ways. "Nanook told me about that." She looked at Bernard. "We don't have a lot of time for secrets," she told him. "Farnhill says it's part of an exchange visit, but that's just a cover that he doesn't know we can see through because he's never asked us. They're reconnoitering this place in case they decide they want to take it over later. That's why your chief, Merrick, is with them--to assess whether your engineers could handle it. Is this not arrogant insolence?" He looked back at the boy and jabbed an accusing finger at him. "Do you claim to have seen atoms? Tell us that you have, and I will say that you lie!"
