The.Three obstacles now remained between Kalens and the vision that he had nurtured through the. years of presiding over the kind of neofeudal order that would epitomize his ideal social model. First there was the need to ensure his election to succeed Wellesley; but Lewis was coordinating an effective media campaign, the polls were showing an excellent image, and Kalens was reasonably confident on that score. Second was the question of the Chironians. Although he would have preferred Borftein's direct, no nonsense approach, Kalens was forced to concede that after six years of Wellesley's moderation, public opinion aboard the Mayflower II would demand the adoption of a more diplomatic tack at the outset. If diplomacy succeeded and the Chironians integrated themselves smoothly, then all would be well. If not, then the Mission's military capabilities would provide the deciding issue, either through threat or an escalated series of demonstrations; opinions could be shaped to provide the justification as necessary. Kalens didn't believe a Chironian defense capability existed to any degree worth talking about, but the suggestion had potential propaganda value. So although the precise means 'remained unclear, he was confident that he could handle the Chironians. Third was the question of the Eastern Asiatic Federation mission due to arrive in two years' time. , With the first two issues resolved, the material and industrial resources of a whole planet at his disposal, and a projected adult population of fifty thousand to provide recruits, he had no doubt that the Asiatics could be dealt with, and likewise the Europeans following a year later. And then he would be free to sever Chiron's ties to Earth completely. He hadn't confided that, part of the dream to anyone, not even Celia.,."Er... Shirley and Ci," Driscoll said. "Of course not," Bernard replied. "But I think people are exaggerating the situation. That incident was not representative of what we should expect. The Chironians act as they're treated. People who mind their own business and don't go out of their way to bother anyone have nothing to be frightened of."..Micky shrugged..But Lesley was not listening as he gazed down at the platform below, which fanned outward from the arc lights above the lock to become indistinct in the darkness of the antechamber. Figures - were moving slowly from the shadows by the transit tubes and freight rails, spread thinly at the back, but closing up as they converged with the lines of the platform. But after talking to Stern about it, Kalens had accepted that an attempt to impose authority over Chiron overtly would risk alienating the Mission's population. A more subtle approach was called for. "Ultimately, human instincts cling to the known and the familiar," Kalens lectured Borftein later. "A visible commitment to lawfulness as a alternative to the lawlessness of this planet is the way to maintain cohesiveness. We can't afford to jeopardize that." So Borftein had -agreed to try playing the game their way, which hinged upon provisions written into the laws to take account of the abnormal circumstances of a twenty-year voyage through space..her baroque conversational games.
